WHY THIS PLOT, WHY NOW

Four reasons buyers choose Margalla Orchard

10 min to Faizabad

Inside Islamabad, on Park Road

The scheme faces COMSATS University on Main Park Road, in CDA Zone 4. Most new schemes are 25 to 45 minutes from the city centre. This one is in it.

3 government partners

Government-backed from day one

FGEHA owns the scheme. The Supreme Court Bar Association is a partner. DHA Islamabad has done the development work since September 2025. The layout plan was approved in August 2022.

4,781 plots, fixed

A fixed number of plots

The scheme has a set number of residential plots. Two out of three are 1 Kanal. Buyers in this part of Islamabad have few other plots to choose from.

50% built

Moving toward possession

A new payment schedule for all blocks started on 1 November 2026. FGEHA plans to give possession of Block A in July 2027. The other blocks follow.

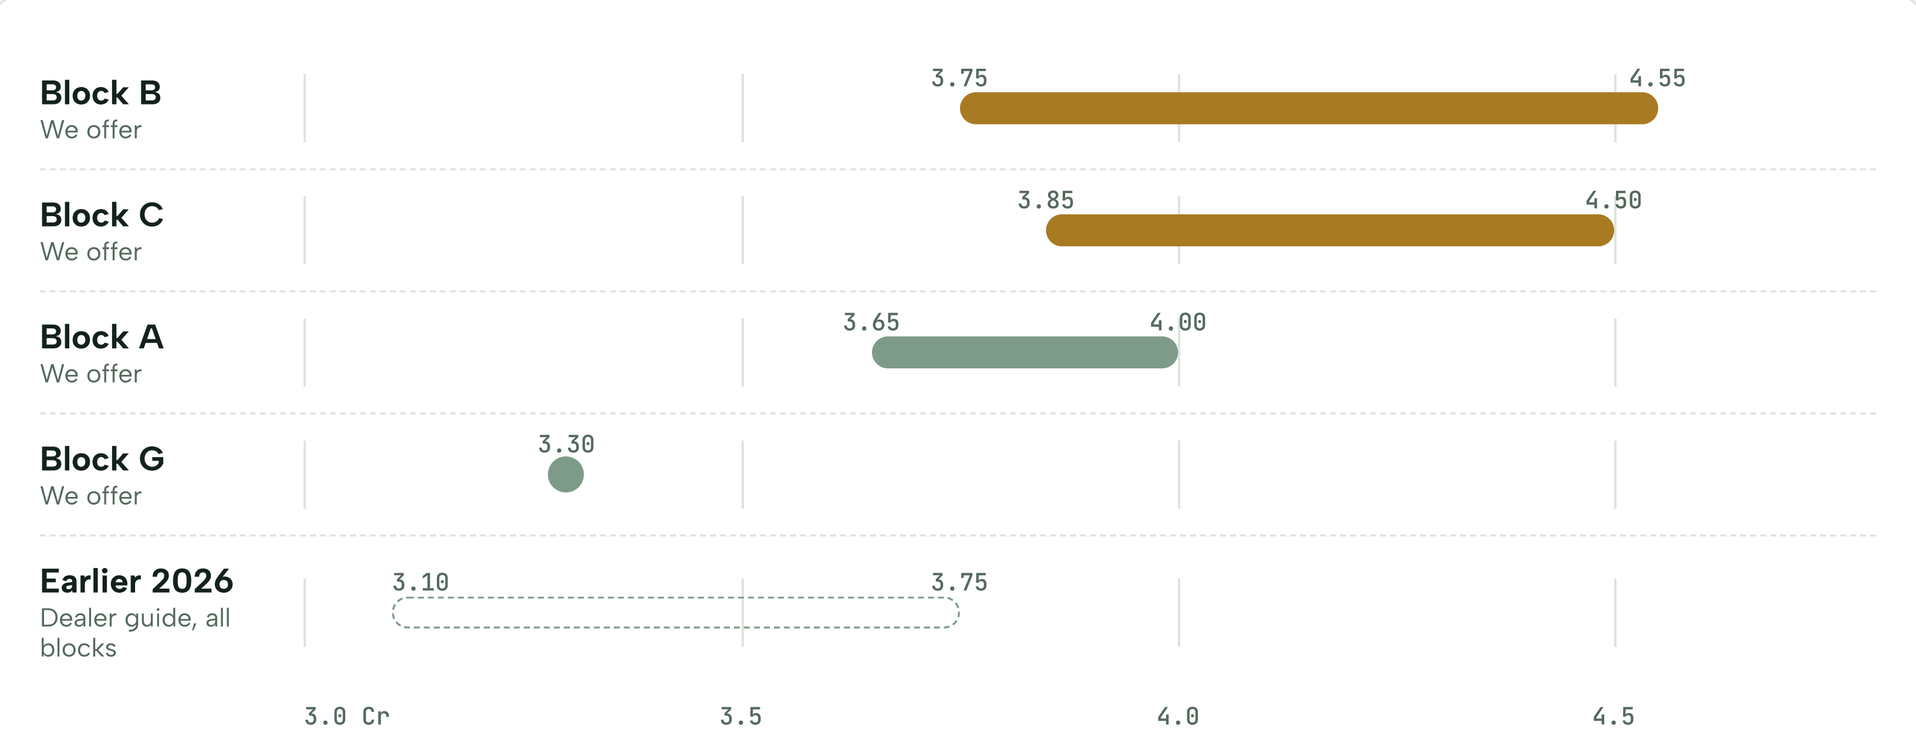
MARKET PRICES

What sellers ask for 1 Kanal today

Asking prices in late October 2026 run from PKR 3.3 to 4.55 crore. Blocks B and C sit at the top of the range.



VALUE OVER TIME

The price gap with Margalla Enclave

A 1 Kanal in Margalla Orchard asks about PKR 3.8 crore today. The same 500 sq yd plot in DHA Margalla Enclave, 4 km away, costs PKR 7.29 crore from DHA. Our team expects Orchard to reach about 85% of the Enclave price, around PKR 6.2 crore, by Block A possession in July 2027.

●●● OUR EXPECTATION

Level with Margalla Enclave

+55% by July 2027

Demand flows in over the next year. By Block A possession in July 2027, prices reach about 85% of the Enclave price, then close the rest of the gap.

A plot bought at PKR 4.0 crore would be worth about **PKR 6.2 crore** by July 2027, and about **PKR 7.3 crore** (+82%) once level with Enclave.

●●○ POSSIBLE

Conservative: today's pace

+20% by end 2028

Prices keep rising at about the pace of the last 12 months, around 9% a year, and the gap with Enclave stays open.

A plot bought at PKR 4.0 crore would be worth about **PKR 4.8 crore**.
